BYU’s Denmark Internship Program invites those who want to see what Denmark can do for them. We are looking for students with a developed proficiency in Danish or for highly motivated students who are looking for an immersive experience in the work climate and culture of this important hub of northern Europe. The internships cover a wide variety of fields, are unpaid, and last between approximately six weeks in Copenhagen. All majors are welcome to apply. Internship fields may include research, bio technology, museums, public relations, communications, business and marketing. Students are welcome to suggest additional areas of interest.
