Health care has transformed society in the last fifty years. Life expectancy has skyrocketed, but it has not reached every corner of the globe. In Panama, rural communities face unique challenges and students can be part of the solution. Learn how ThinkImpact provides a life-changing experience to impact global health.

Saul Garlick is the founder and chairman of ThinkImpact, a certified B Corporation that offers students immersion experiences in social innovation. ThinkImpact was originally founded when Garlick was a student and was built through student efforts of the past decade. Learn from his experience building a high impact model and consider your own impact in this conversation.

BYU works with ThinkImpact through the Panama ThinkImpact Global Health Internship.
