National security and intelligence careers are evolving to meet a turbulent world. How many of the key organizations and activities of the U.S. intelligence do you know? What are the trends shaping the U.S. intelligence community? Learn about the core organizations, such as the CIA, NSA, DIA, and NRO as well as major players with embedded intelligence activities (FBI, DEA, Treasury, State, Energy, etc.), how “intelligence integration” is changing the field, and the implications for your career.

**Bruce M. MacKay** is a faculty member at the National Intelligence University, America’s only degree-granting institution that uses classified information in its programs of study. Prior to joining the NIU faculty, MacKay was a faculty member at the Marine Corps University and was a staff officer at the Defense Intelligence Agency.
