

Conversation with **C. Arden Pope III**, coauthor of

# PARTICLES OF TRUTH

A STORY OF DISCOVERY, CONTROVERSY,  
AND THE FIGHT FOR HEALTHY AIR

*Particles of Truth* is a compelling, real-life account of the discovery of the critical health effects of air pollution. With an insightful foreword by former EPA Administrator Gina McCarthy, this book provides an inside look at groundbreaking scientific evidence that air pollution is a major contributor to disease and death and that reducing air pollution saves lives. Published/distributed by MIT Press/Penguin Random House (April 2025).

**Books will be available for purchase and signing.**

**4 PM | 3 April 2025 | Reynolds Auditorium (1060 HBLL)**

**C. Arden Pope III** and his co-author, **Douglas W. Dockery**, have been at the forefront of air pollution and health research for nearly four decades. They have also been involved in related public policy and legal controversies. Pope is a professor of economics at BYU; Dockery is a professor emeritus at the Harvard School of Public Health.
