On the Map

YOU MIGHT WONDER ABOUT WHO NAMES THE WORLD when you look at our newly updated 2025 bespoke map. The award-winning 2012 version—designed from scratch, separated into regions, and installed in the Kennedy Center’s four stairwells—highlights BYU’s study abroad, internship, field school, and direct enrollment locations. Also, each country name is listed in a *national language*—fostering a 13-year dialogue, with editorial corrections featured here.
