

BYU In Stratford

Working with the Trust has been a great experience for me. I came on this internship hoping to build my research skills as well as immerse myself in the culture of Shakespeare, and the internship did not disappoint. My position at the Trust has helped me understand more about myself and what I want to do in my future career. I have also learned so much more than I possibly could have anticipated.

I have been able to see the inner workings of a non-profit organization and all of the marketing and digital intricacies that go into just an average day of work. This internship has made me a more confident person, and it has opened up my mind to taking chances and trying new things. It has been great to look back on the internship and see the projects I have been working on come to fruition.
