

Google BOLD Immersion Program

The Building Opportunities for Leadership and Development (BOLD) Immersion Program is an all-expenses-paid program 4–9 August 2019 at Google’s Mountain View headquarters. The program is designed to provide exposure to the technology industry for students who have been historically underrepresented in this field. Selected participants will learn more about nontechnical career opportunities at Google and grow their professional and peer networks. The robust program will include tech talks, skills-building seminars, and of course, fun! The BOLD Immersion application consists of a resume, a short essay, and an unofficial transcript.

For more information, [visit the web site](#). Direct questions about the program to boldimmersion@google.com.
