

## Italy Abroad Info Session

This fall, study in incomparable Siena, Italy. Unlike any other BYU program, ours is designed for you to live in Europe—to settle down into the life of one of its most culturally rich cities—rather than constantly hop from place to place like tourists. You will study at the prestigious Istituto Dante Alighieri and immerse yourself in the culture of Italy: the architecture, the food, the music, the history, and the incomparable art that will surround you on every side. Two major excursions to the north (the Alps and Venice) and the south (Rome) will round off your experience. You will gain the kind of international experience that employers are looking for, receive a cultural education unavailable anywhere else, and experience an adventure that will change your view of the world.

Join us for a relaxed, informal information session. See pictures of Siena and other sites you will visit, as well as receive answers to questions you might have about the

program.
