

Plan Classes

Successful students create a graduation plan to make the most out of college. A graduation plan helps to ensure that you complete all the requirements on schedule and helps to balance the class load. With a graduation plan, you will have time for a minor, an internship, or study abroad.

Graduation plans may be created using MyMap online or by using one of our graduation planners.

Schedule time with an advisor who will review your graduation plan and provide recommendations based on your major and to meet your goals. Contact the Advisement Center to schedule an appointment now.
