Ask Me Anything about opportunities in international business, government contracting, and national security.

Adam Fife is the CEO of CenCore, LLC, a company that provides close to 1,000 personnel in support of U.S. government requirements worldwide. Prior to CenCore, Fife worked as a U.S. government contractor enabling access and placement for USG entities in various global locations, spending time in thirty-eight countries and availing himself of any available surf spots while "working." He now whiles away his time sitting on planes, in meetings, behind a computer, and when he's lucky, on a tractor on his farm along the Wasatch Front, where he lives with his wife and five children.
