FACULTY

Don Cook has been on the BYU organ faculty for 28 years. Cook has enjoyed a passion for historic and important organs of France, Germany, and the United States. His ongoing research on the relative intensity of organ stops has enlivened his performance and teaching of the many organ works composed for those instruments.

Neil Harmon joined the BYU organ faculty in September 2018. Harmon received a BA in music at BYU and an MA and a PhD at the Eastman School of Music. A widely published composer of organ and choral music, he has performed in Europe, Canada, South America, and the United States.

SCHEDULE AND TIME COMMITMENT

All students participating in the program will be traveling together with the directors. Participants will be expected to travel with the program group between the dates specified. Free time will be given to work on curricular assignments.
